

SURANJAN ACHARY

Full Stack Developer: Java Backend & Modern Frontend Engineer

suranjan.achary@gmail.com | 8270077244 | Bangalore, India | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full-Stack Developer with **3+ years** of experience building enterprise web applications using Java 17, Spring Boot, React, and Angular. Experienced in developing secure REST APIs with JWT/OAuth2 and RBAC and building reusable IBM Carbon UI components that reduced repetitive frontend effort by **20%**. Worked on API optimization, deployment automation using Docker and GitHub Actions, and supporting applications used by thousands of users across enterprise workflows.

SKILLS

Backend: Java 17, Spring Boot 3, Hibernate/JPA, REST APIs, JWT, OAuth 2.0, RBAC, Microservices

Frontend: React 18, Angular 15+, JavaScript (ES6+), TypeScript, HTML5, CSS3, IBM Carbon Design System

Databases: MySQL, MongoDB, Redis (caching), Apache Kafka (event streaming)

DevOps: Docker, GitHub Actions (CI/CD), AWS (EC2, S3), Postman

Testing: JUnit 5, Mockito, Jest, Postman API testing, cross-environment validation

Key Skills: System Design, Data Structures & Algorithms, Agile/Scrum, Git, GitHub

PROFESSIONAL EXPERIENCE

Software Engineer II

06/2025 – Present

Techcanopy Software Labs | Bangalore, India

- Spearheaded the architecture and delivery of enterprise Cyber Risk Quantification (**CRQ**) and third-party risk management modules leveraging **Java 17, Spring Boot 3, React 18, and MongoDB**, serving **5,000+** active users across mission-critical cybersecurity workflows.
- Engineered a robust JWT authentication, RBAC authorization, and EULA compliance framework, significantly strengthening platform security posture and eliminating manual governance overhead.
- Designed and delivered **20+** production-grade IBM Carbon UI components adopted enterprise-wide across multiple squads, accelerating feature delivery velocity while enforcing consistent UX standards.
- Orchestrated integration of **10+** REST APIs and upheld **99%+** automated test reliability via JUnit 5 and Mockito suites across dev, UAT, staging, and production environments.
- Drove end-to-end deployment, compliance auditing, and production operations for cybersecurity products spanning susceptibility analysis and vendor risk assessment domains.

Full-Stack Developer

02/2023 – 04/2025

Hostbooks Limited | Gurgaon, India

- Engineered core ERP modules in **Java 17 + Spring Boot 3** powering finance, payroll, and compliance workflows for a **5,000+** user SaaS platform; drove a **25%** reduction in page load time through API optimisation.
- Built a high-throughput RESTful API layer handling **500+** concurrent requests at sub-200 ms average latency, consumed by Angular **15** frontend and native mobile clients.
- Architected multi-layer JWT / RBAC security model integrated across backend and Angular frontend, hardening the application against OWASP Top 10 vulnerabilities.
- Delivered reusable IBM Carbon UI components and Angular directives adopted across **4 product teams**, reducing repeated frontend code by **~40%** and accelerating sprint velocity.

Research Assistant

01/2021 – 02/2022

CPDDAM, Osmania University | Hyderabad, India

- Developed data lines and applied advanced analytics to accelerate research deliverables.

Graduate Engineering Trainee

11/2017 – 08/2018

Steel Strips & Wheels Ltd | Chennai, India

- Executed statistical process control (SPC) monitoring on 3 production lines to optimize quality.

PROJECTS

Enterprise Risk & Compliance Platform

- Created a multi-tenant compliance platform for 3,000+ users across 12 tenants: enforced data isolation with JWT/ RBAC, cutting unauthorised-access incidents to zero.
- Implemented Redis caching layer reducing database load by 60%, and Kafka-driven async reminder engine processing 10,000+ notifications daily with guaranteed delivery.
- Containerised all services with Docker and automated CI/CD via GitHub Actions, achieving 50% faster deployments and enabling zero-downtime rolling releases.

EDUCATION

Full Stack Web Development Program | Masai School, Bangalore

02/2022 – 12/2022

Master of Engineering (M.E.) | University College of Engineering, Osmania University, Hyderabad

08/2018 – 03/2021

Bachelor of Technology (B. Tech) | Kalam Institute of Technology, Berhampur

08/2013 – 05/2017
